Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

Applicant's arguments with respect to claim 1 based on the Response filed on 12/05/2005 have been considered but are moot in view of the new ground(s) of rejection. Therefore, this is Final action.

Claim 2 is cancelled and claim 5 is withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yoshiyuki et al. (JP07-128674) and Ito et al. (US6231917B1).

Yoshiyuki et al. teach a liquid crystal display device manufacturing method comprising the steps of:

- forming a sealing member 10 along a periphery of a display area on a first surface of a first substrate 7;

Art Unit: 2871

- dropping a liquid crystal to the first surface of the first substrate 7 from a liquid crystal supply needle (tip of syringe) provided to a syringe 5, in which the liquid crystal is filled;
- causing a portion of the liquid crystal, which has adhered to a surface of the liquid crystal supply needle/tip, to fall onto the first substrate;

However, Yoshiyuki et al. fail to disclose a liquid crystal display device manufacturing method comprising the step of blowing a gas against the liquid crystal supply needle after said dropping the liquid crystal step with features of claim 3.

Ito et al. teach (Fig. 11A-C) a method for forming liquid film including the step of blowing a gas against the liquid crystal needle with force and arranged around the supply needle/tip. Therefore, a liquid crystal display device manufacturing method comprising the step of blowing a gas with external force against the liquid crystal supply needle/tip after said dropping the liquid crystal step for shutting out liquid/or liquid crystal (col. 5 lines 45-46).

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to further modify a liquid crystal display device manufacturing method comprising the step of blowing a gas with external force 16a against the liquid crystal supply needle/tip after said dropping the liquid crystal step for shutting out liquid/or liquid crystal (col. 5 lines 45-46).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
